

Capitol proposes a wide range of fully bespoke leather products to offer guests an even more exclusive and elegant service in the restaurant and bar. Menu holders, wine and drinks lists, bill folders, etc... are distinctive elements for a restaurant and they convey its style and philosophy through the combination of shapes, materials and colours.

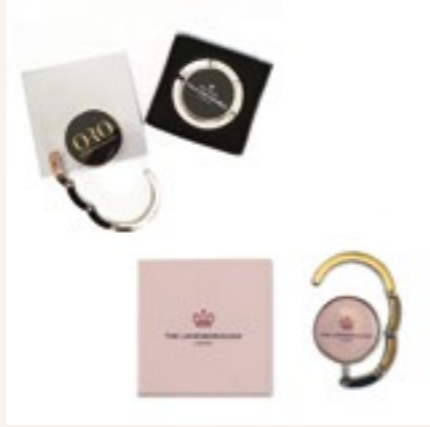

TEA AND COFFEE BOXES

Organizing a corner dedicated to coffee and tea inside the room allows guests to be able to take a small and quick break at any time and to present snacks and drinks neatly. Capitol helps hotels to design the most suitable product based on the available space and what it must contain: hinged lids, drawers, compartments... everything is customizable such as the material, ranging from wood and leather to acrylic.

F&B ACCESSORIES
 Complete the range of accessories for the restaurant and in-room service with customized products that reinforce the brand image: coasters - in paper, cork, leather or silicone - metal or glass stirrers, Oshibori - wet cotton wipes - matches, bag hooks... These are just some of the proposals that Capitol can offer to impress hotel guests.
