

Receiving

The reception is the business card of a hotel, it's where guests' experience starts, and first impressions are made. This is why it is important for Capitol to provide products that ensure an exclusive and high-level service, starting with leather and fake leather products for welcome – like limo box and airport panels - check-in/out folders and blotters, key card holders, ... which can be customized in any leather quality, size, colour and logo.

UMBRELLAS

The umbrella, in addition to covering guests from the rain, is a useful distinctive marketing tool for the hotel. This is why Capitol develops made-to-measure models: hotels can choose between a wide range of materials, colours, styles and sizes. Logo, graphic and pattern can be printed on customers specifications/ requirements. For example, deluxe umbrellas have double panels and leather handle, while the eco-friendly ones are made of waterproof cotton.

GARMENT COVERS

Different types of garment covers are available depending on the customer's wishes and use: from those eco-friendly in bio-compostable material for daily use for the delivery of clean laundry, to standard ones in cotton and non-woven cloth, up to deluxe models for the suite made of microfiber or cotton, with handles, foldable like a bag.

PENS AND PENCILS

A "must have" in the hotel! Pens are always useful, and customers are used to finding them. Capitol offers a wide range of models – twist or click opening, with cap or stylus for use on touchscreen – sizes and colours. All pens can be customized with hotel logo printed or engraved.

Pencils are available in round or hexagonal shape, with or without rubber, made of wood lacquered in any colour.
