## UMBRELLAS

The umbrella, in addition to covering guests from the rain, is a useful distinctive marketing tool for the hotel. This is why Capitol develops made-to-measure models: hotels can choose between a wide range of materials, colours, styles and sizes. Logo, graphic and pattern can be printed on customers specifications/ requirements. For example, deluxe umbrellas have double panels and leather handle, while the eco-friendly ones are made of waterproof cotton.

### GARMENT COVERS

Different types of garment covers are available depending on the customer's wishes and use: from those eco-friendly in bio-compostable material for daily use for the delivery of clean laundry, to standard ones in cotton and non-woven cloth, up to deluxe models for the suite made of microfiber or cotton, with handles, foldable like a bag.

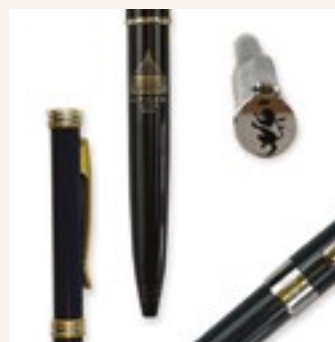

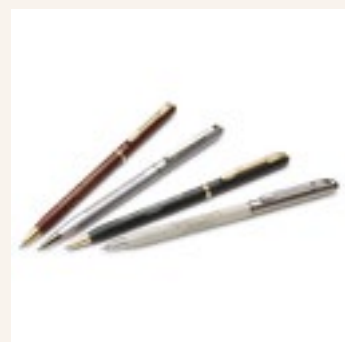

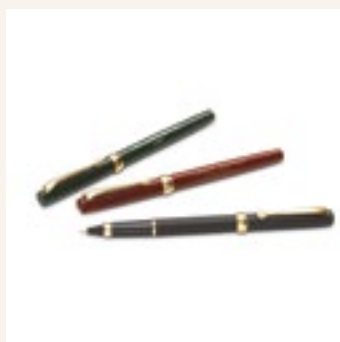

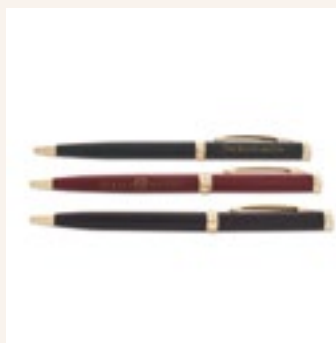

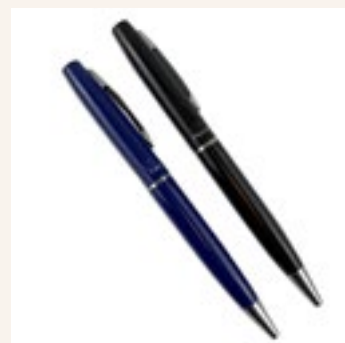

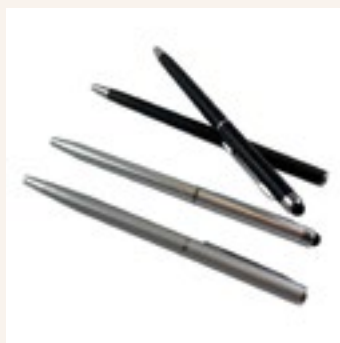

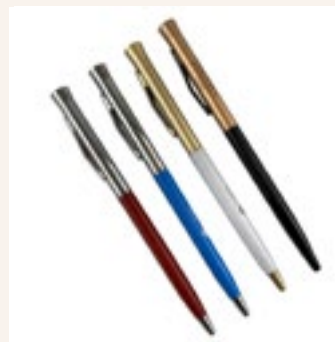

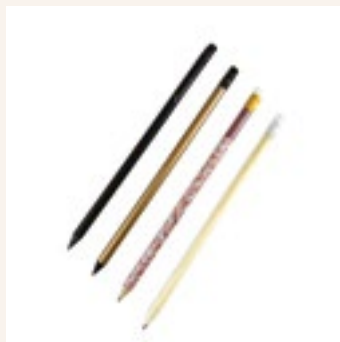

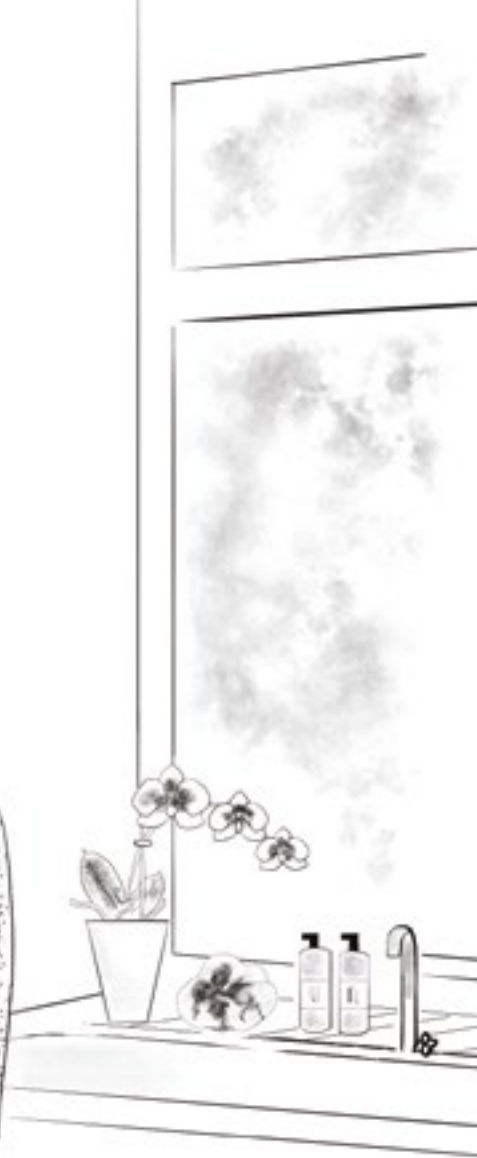

## PENS AND PENCILS

It is as strong as steel, as beautiful as stone and can be worked as wood.
